

## **Life Support:**

### *Extension Ministry Financial Support Request for Life Groups*

Believing that God has uniquely positioned life groups in particular places to intentionally develop relationships for the sake of making His love known, and believing that, in this way, life groups are an active expression of New Bridge's extension ministry, we will resource life groups to respond to opportunities God has given them so long as they align with New Bridge's extension ministry strategies and beliefs. These include, but are not limited to:

- The ministry is an extension of this life group to the non-believers God has placed in connection with this life group
- This is a relationally driven opportunity rather than a service project
- This opportunity has been pursued in prayer
- The goal is to build a bridge to deeper relationships and ongoing opportunities to live out and share the Gospel
- The life group is committed to ongoing prayer for this person/family/organization
